

◆ Investor Summary – MINERA (MNRQV)

Project Identity

- **Name:** MINERA
- **Ticker:** MNRQV (Quality + Vision/Value)
- **Domains:** MINERAQV.com | MINERAQV.finance
- **Cashtags/Hashtags:** \$MNRQV, #MINERAQuality, #MINERAVision

Vision & Narrative

MINERA is a compliance-grade blockchain project funding sustainable UK mineral recovery.

It blends **regulator assurance, investor transparency, and ESG alignment** to create a trusted ecosystem.

Token Utility

- **Access:** Unlocks investor dashboards, regional sub-reports, and ESG data.
- **Governance:** Enables participation in community votes and project decisions.
- **Transparency:** Proof-of-engagement token, ensuring all interactions are auditable.
- **Alignment:** Links investor participation directly to mineral recovery projects in Cornwall, Wales, and the Midlands.

Key Features

- **AI-First Development:** No manual coding; all portal and dashboards built with AI tools.
- **Compliance:** Daily assurance ledger, living compliance log, regulator-grade dashboards.
- **Branding:** Iconic token symbol inspired by Arthurian myth (sword in the lake, Merlin's runes).
- **Investor Portal:** Unified access to sub-reports, dashboards, and communications.

Risk Factors & Mitigation

- **Market Volatility:** Mitigated by intrinsic utility in dashboards and ESG reporting.
- **Regulatory Shifts:** Addressed with regulator-grade documentation and compliance logs.
- **Technical Risks:** Controlled via AI-first build, QA, and audit trails.

- **ESG Concerns:** Balanced with transparent reporting and community engagement.

Call to Action

Join the MINERA community.

Be part of a project that blends **compliance, sustainability, and innovation** — delivering transparent, regulator-grade blockchain solutions for mineral recovery and investor trust.
